Time Alone With God

The best investment you could ever make with the most profitable returns will be the time you take each day to be alone and communicate with God. This time will not only give you a godly outlook on each day but on your entire life and on those people and circumstances around you.

You must work at having a consistent time alone with God each day. It will not just happen. You must set the priority and let everything else revolve around that time with God. I challenge you to decide today and now to build this habit into your life and to protect it, for in your time alone with God lies the secret to your daily walk and relationship with Him.
